Our Mission is to ensure corporate development that takes our stakeholders to the highest competency knowledge and welfare level as well as to create continuous value for its industry our country nearby geography and the world with its sustainable growth strategy.

---

## Corporate Values

Corporate Values of the Group is Family, Trust, Development, Responsibility and Quality.

# Production Facility

The facilities are located on 240,000 m<sup>2</sup> land with 170,000 m<sup>2</sup> closed building area.

Our dye house, which has a daily dyeing capacity of 25-30 tons/day, consists of the cutting with cutting edge latest technology equipment setup with Laip kiers, Stalam dryers, Savio Auto Winding machines with air splicer and latest electronic clearers to remove any yarn and colour defects.

Fully equipped laboratory to fulfill all fastness tests, friction tests and delivers customer specified colours within maximum two business days.

Fully automatic pipeting machine delivers colour trials with %100 repeatability and high precision in short time and saves any possible human error. Dyes and auxiliary chemicals are weighed and transferred to dyeing machines with Lower liquid and powder dosing automation system.

Saves human errors and result with efficient dyeing operation.

All dyes and chemicals are supplied from global highly reputed leading companies.

Our staffs are experienced in textile and dye chemistry technology and work diligently to ensure customer satisfaction in all processes from laboratory tests to packaging.

Depending on the order quantity, Blended Yarns, Fancy

Yarns, Single Yarns and Folded Yarns from Ne 2 to Ne 60 dyed to customers' own colour shade maximum 7 days.

Sold dyed yarns are kept in stock for prompt delivery to meet changing market demand for fast fashion.

All purchased yarns supplied by leading yarn manufacturers from Local and international yarn manufacturers.

# Facility Information

## DIGITAL ERP SYSTEM

ERP software used for Process Planning and Production Tracking All steps in production process recorded against time.

Lab test results and dyeing recipes are recorded. Dyeing pattern and recipe are delivered to dyeing machine and Lawer automated dosing system via ERP.

Soft Winding and hard winding program planned with ERP software to meet customer quality request.

## MERP and PLC

Manufacturing Enterprise Resources Planning software and machine controlling PLC runs synchronized with digital data from ERP software.

The entire dyeing process is controlled and monitored remotely by MERP software.

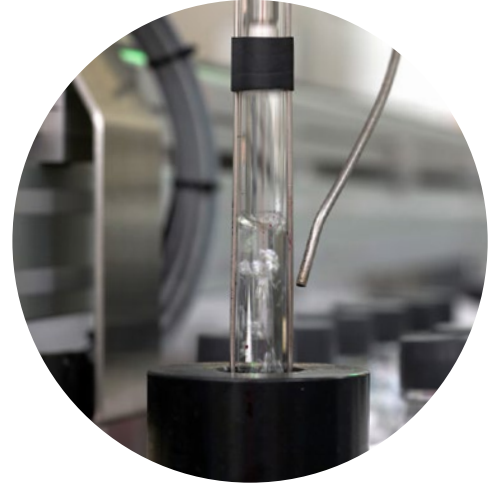

Auxiliary chemicals, dyestuffs steam, water consumptions are reported by MERP software.

Which allows us to optimise and improve dyeing consumptions and time taken.

MERP software monitors every batch of dyeing process and prevent any error in machine functioning.

# Facility Information

## Lawer Dosing Automation

Automatic liquid and auxiliary chemical dosing operates with digital signals from MERP software. Delivers exact amount of auxiliary chemicals and dye stuffs to the assigned machine in liquid form and ready to inject into dyeing liquor. Prevent any human mistakes and high efficient dyeing.

# Machine Track

Soft Winding Savio Pulsar Eco Plus Autowinders.

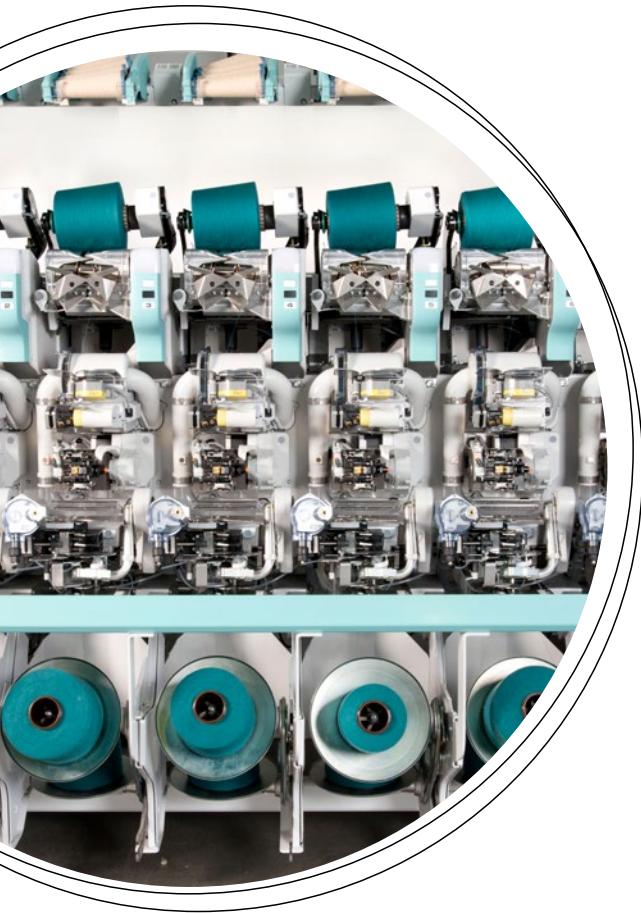

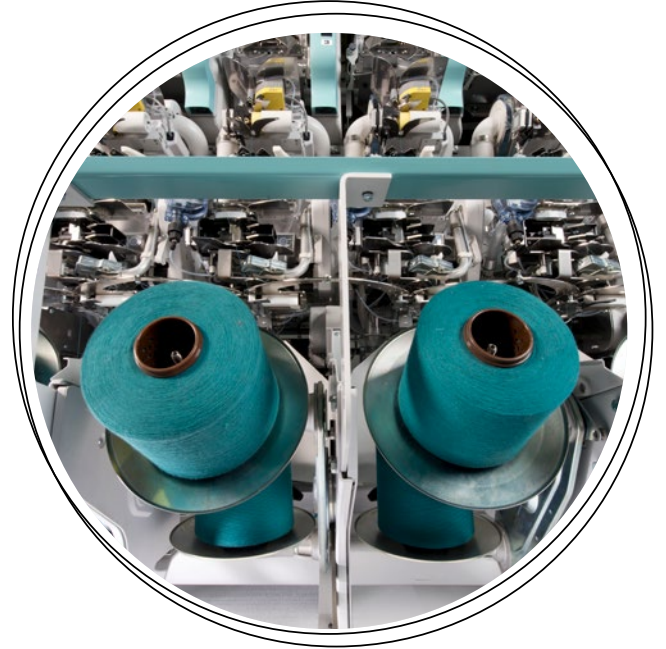

Hard Winding Savio Pulsar Eco Plus Autowinders.

All yarns ( every single centimeter of yarn ) electronically cleared LOEPPFEZIED.

KNOTLESS YARN air and water mist spliced Yarns metered with high precision for weft on weaing Fully automated soft winding and rewinding.

All yarns electronically checked and cleared for any colour defects.

Fully automated with ERP Software and remote reporting.

# Laboratory

Colour laboratory is aimed to realize any colour with reactive, disperse, acid, nylon dyestuffs for cotton, polyester, acrylic, viscose, modal and blended yarns.

Customer defined any colour sample delivered within 2 days.

Precise colour definition result with high Right at First Time Dyeing.

The automatic pipetting machine allows us to prepare sample dyeing liquor with high precision and 100% repeatability.

# Laboratory

Colours checked with colour spectrophotometer for targeted colour and colour correction is defined with. Fastness tests performed in the laboratory;

1. Wet and Dry Rubbing,
2. Water fastness,
3. Washing fastness.
4. Yarn friction
5. Yarn twist
6. Yarn unevenness
7. Yarn count
8. Water hardness
9. Auxiliary chemicals quality compliance
10. Knitted yarn swatches
11. Yarn blending ratio

# Shipment & Storage

Warehouse capable of storing 2.000 tonnes of yarn in compliance with ISO 18001 standards.

Steam is produced only with natural gas for least environmental impact.

Steam generator is equipped with economiser to improve fuel efficiency.

We promise to decrease water and heat energy consumption by minimum %5 every next year.

Flexibale yarn packaging depend on customer request.

- A- PP Sack
- B-Cartboard Box
- C-Pallet with stretch film

Lila Group exports over 80 countries in 5 continent. Due to high volume, the Group has favorable delivery terms with long-term logistics agreements from the leading shipping lines and the regional port.

# Quality Assurance

OEKO-TEX Standarts 100 Class 1 Apendix 6 Cert.  
No: 17.HTR.29872, 17.HTR.21394  
GOTS Global Organic Textile Standard Certificate (CU812829)  
Marks & Spencer Self Audit (000536)  
ADIDAS Colour Management Accreditation Program Level A2

# Sustainability & CSR

## For a Sustainable Future

Lila Group has a high opinion of “sustainability”. We believe resources should be consumed in a conscious way in order to meet today’s needs while supplying the needs of future generations. Therefore, we aim to contribute to sustainability by our projects of rainwater catchment area, electrical systems that provide highly energy, intelligent ventilation system project, accumulating waste heat and recovering it via our new

## Another support from Lila Group to education

We’d like to support sport, culture and art although our priority in education and environment. We brought art lovers together in 2018 as a sponsor of the “From Underwater to the Future” exhibition to support “TEGV”. With the income from this exhibition to **525 children entered the education** opportunity. This was Lila Group’s 3rd photography exhibition. With all the exhibitions, Lila Group has touched the future of **1.212 children** so far.

## Social Sustainability

Lila Group supporting over **20,000 children’s education** with “Maylo” brand, Maylo has been donating a portion of its turnover to Turkish Educational Volunteers foundation (TEGV) each year since 2010.

## Social Sustainability

Lila Group, was collaborate with Fibria which is one of the cellulose company and TEGV. Together we opened the **TEGV Fibria Learning Unit** in Tekirdağ on November 20, World Children’s Rights Day 2018 with the donation of Fibria. We aimed to support the **education of a total of 2.000 children** between the ages of 6-14 in a year.

# Sustainability & CSR

There are different school and dormitory projects realized by Lila Group. These schools are in provinces such as Gaziantep and Tekirdağ. **A dormitory for girls** has been built in the name of Abdullah Ögücü and Mrs. Aysel Ögücü in Kadıköy İstanbul in year 2003. **A school** has been built in the name of Aysel-Abdullah Ögücü and in Çorlu in year 2012.

Lila Group is a family company. Therefore, Lila Group is the corporate **supporter and member of TAIDER** which is a safe, shared-learning space for enterprising families to flourish across generations, through the exchange of excellent, innovative and impactful practices.

Lila Group supports gender equality and inclusiveness in the business world. Therefore, Lila Group is the corporate **supporter and member of the LEAD Network**.

The mission of LEAD Network (Leading Executives Advancing Diversity) is to attract, retain and advance women in the retail and consumer goods industry in Europe through education, leadership and business development. Percent of our managers are 38% female and 62% are male. Lila Group is the first signer of CEO Pledge in Turkey to increase women rate.

With the marathons that we participated with our employees, we **contributed to the education of 350 children** in last 6 years.

Besides that in the last 5 years we have provided, donated clothes to 3.000 children by our employees. In addition, on special days (Birthday, Women's Day, Father's Day) products of a Non-Profit Organization are given to employees as presents.

Since 2015, we have **donated 4.884 boxes of tissue paper** to 46 associations and schools.

# Why Lila Group?

1	<b>Integrated Production Facility</b>	Having an integrated and the latest available technology gives more control over production and quality.	Flexibility over production to meet customer expectations.	Broad pricing & market know.
2	<b>Quality Orientation</b>	Production facility has special certifications.	Lower shipping costs due to high exports volume.	Sustainable production with low energy&water consumption.
3	<b>Customer Support</b>	Dedicated sales, marketing and quality representatives provide distinguished service, while supporting customers with service and product development.	Specialty certifications for quality.	Flexibility in packaging.

## Reliable Supplier

We carry our years of expertise in industrial practices along with our corporate values to the future of our Corporation, Nation and to the World.
